The Balearics
Itinerary suggestion

The Balearics

The 4 main islands of the Balearic archipelago – Ibiza, Formentera, Mallorca and Menorca – maintain a character distinct from the rest of Spain and from each other.

Ibiza is wholly unique, its capital Ibiza Town is loaded with historic interest and a draw for thousands of clubbers and gay visitors, while the north of the island has a distinctly bohemian character. **Formentera** with its rustic charm has even better beaches than its neighbours. **Mallorca**, the largest and best-known Balearic is the senior island, combining spectacular mountain scenery and hiking through to the standard sea 'n' sun seaside tourism. **Menorca** is a haven of tranquillity – splendid isolated beaches and coves, and prehistoric monuments standing as taciturn reminders of how small we are in the grand scheme of things.

Surprisingly, the islands have managed to maintain much of their intrinsic beauty. Beyond the high-rise resort hotels, bars and more popular beaches are Gothic cathedrals, Stone Age ruins, fishing villages, spectacular walks, secluded coves, endless olive and almond groves and citrus orchards.
