

FIORENTE

Posted on July 4, 2022 by bo-team

Category: [Motor Yacht](#)

With an impressive Italian design pedigree and all the latest innovations in comfort, Fiorente is a superjacht truly deserving of her name. Having only flourished with time, she graces the seas without a hint of vibration or noise and brings her warm, effortless style wherever she goes. Fiorente holds five fully featured guest cabins and supports a crew of six. Twin 500 horsepower Scania engines allow Fiorente to cruise at a comfortable 12 knots with a range of 4000 nautical miles.

Custom-built and delivered in 1990, the 37 metre (121.93 ft) motor yacht Fiorente was extensively refit in 2016 to the exceptional standards of world-renowned builder Ferronavale. With original exterior by Studio Peterlin Ltd. and interior styling by the late unrivalled designer Alberto Pinto, the result is a truly classic Italian yacht with all the comfort and features of a contemporary build.
