**Category:** [Motor Yacht](#)

The 45.5-metre Global 450 was created for world cruising, and introduces several innovative features for her overall length of 45.5 meters and 475 gross tons. As a true explorer, the vessel offers increased storage and a spacious garage in the bow. The guests enjoy an expansive beach club area aft, with fold-down bulwarks, large pool and terraced steps leading down to the swimming platform. Further along the main deck is the semi-enclosed "winter garden", perfect for al fresco dining.

Another highlight is the master stateroom on the main deck forward that has a private office with a fixed balcony, so owners can keep in touch with their business affairs wherever they go. With four guest cabins on the lower deck and an oceanic range of 4,000 nm, the steel-hulled Global 450 offers eye-catching style and deluxe comfort in a relatively compact and efficient package.

Like other Dynamiq models, the sundeck is among the largest in her class with a second pool, bar, and the opportunity to add gym equipment for enjoying a workout with spectacular views.

Special high tensile steel, which is lighter than carbon steel, together with certified marine-grade 5083 aluminium are used to build the hull and superstructure of Global 450. The metal construction ensures a stiff, robust and vibration-free vessel that is very comfortable and seaworthy in a heavy swell or choppy conditions. G 450 is fully engineered in the Netherlands and is commercially compliant.

**The base price of GLOBAL 450 is 23,750,000€ and she is deliverable in 30 months.**
